

Meet the Teachers!

MRS. SCHIAVONE

CP Chemistry
Physical Science/Chemistry
Forensics

2020-2021 will be my 18th year of teaching and 15th year teaching at Belvidere.

I am also the co-advisor of the Future Educators of America. I have worn many hats in my time here, such as starting the swim team and coaching it, golf coach, and member of many faculty committees formed during the school year.

EDUCATION & DEGREES

- BS from Catawba College with a double major in Environmental Science and Chemistry
- Teacher Certificate program from East Stroudsburg University
- Currently enrolled in a Masters program

Attendance Policy

Due to the material covered in science courses, daily Google Meets are expected to be attended. Google Meet takes attendance automatically, and I double check the list of those present versus the class check ins. If students are not present in the meet, they are marked absent. Any technology issues need to be addressed as soon as possible.

Technology in My Classroom

Google Classroom is where all assignments and class material are posted. All assignments need to be turned in on Classroom unless you are in person on the due date. Google Meets are held every day unless otherwise noted in Google Classroom.

Homework/Grading Policy

- See individual course proficiencies for the policies.

COURSE PROFICIENCIES

- CP Chemistry
- Chemistry/Physical Science
- Forensics
