

Meet the Teachers!

ANDREW RUDD

Agriculture Teacher/FFA Advisor:
Ag Science, Ag Bio, Landscape
Design, Floriculture, Ag Mechanics,
Ag Power and Tech, Mechanical
Systems in Ag

EDUCATION & DEGREES

Delaware Valley University- Bachelors
of Science, Landscape Contracting
and Management
Certificates: NJ CTE Teacher Program,
Brookdale College

FAVORITE TOPICS TO COVER:

- Organics vs. Conventional
- Arc Welding
- Animal Health

FUN FACTS ABOUT ME:

1. I'm a firefighter/EMT outside of the school.
2. I'm a past president of the FFA chapter here.
3. I'd rather take a road trip than fly.

CLASS EXPECTATIONS

Behavior & Discipline

- Students are expected to follow the school code of conduct.
- We will try to have a good time, but there's a time and place. Keep it serious when we need to.
- Arguing an opinion is fine; just do it respectfully.

Participation & Attendance

All attendance is being tracked via check ins and Google Meets for virtual students. In person is still face to face. Be present, be connected, and participate is all that I ask! WiFi crashes and appointments happen. Let me know in an email and we can work around it.

Technology in My Classroom

Google Classroom is being used for assignments and information about classes and activities. As I figure out more about some of the new tech we have available (Ex: Nearpod), I'll be building it in to keep everyone involved.

Homework/Grading Policy

- Homework should be handed in by the due date.
- Any late work submitted will receive a 5 point loss per day late.
- Tests missed due to an absence are to be made up on the first day back, unless otherwise excused.
