

Reminder: PLEASE complete the daily COVID form in your parent portal!

Please note the health department's statement & protocol we must follow in the Belvidere School District:

There is still community spread in Warren County & surrounding areas. Based on this, **even if a child presents COVID like symptoms & no KNOWN exposure**, they will be sent home & cannot return to school until they meet 1 of the following 3 criteria:

1. At least 10 days from symptom onset
2. Negative COVID test (send doctor's note)
3. Alternate Diagnosis (send doctor's note)

NOTE: COVID may seem like the common cold in children!

*Allergies:

If you are a student with known allergies, we MUST have documentation from your physician (on a previous physical or prescription) otherwise those symptoms will need to follow the above protocol!

Questions? Please contact our school nurses!
