

Good morning,

This is Mr. Carrubba, Superintendent of the Belvidere School District.

I would like to begin by thanking everyone for their understanding, patience, and flexibility as we work together to navigate this unprecedented situation. Our sense of community is second to none, and we will all continue to work through this tough time together.

As of now, our school buildings will remain closed, and online instruction will continue until further notice. We will follow the guidelines that are being set forward by the Governor's office, the Department of Education and the County Health officials. We will wait for their guidance on when it will be safe to resume our classes in our school buildings.

The Governor also announced on Tuesday that standardized testing (not including SAT/ACT and AP) would be canceled for this school year.

The third marking period will end as scheduled. We will also keep our spring break intact as scheduled, even if we are still in the online setting. Any further adjustments that need to be made to our schedule will be done as soon as practical.

Please stay healthy and safe!
